EXPERIENCE

SOFTWARE DEVELOPER, TCS

Dec 2023 – Present

- Designed and deployed scalable Node.js/Express microservices and **REST APIs** for a healthcare application, improving reliability and performance.
- Provisioned and configured resources on **AWS (EC2, ECS, Lambda, S3)** using **CloudFormation**, ensuring secure and automated deployments.
- Built and optimized **Elastic Search** indices and advanced queries, enhancing search accuracy and speed by leveraging **NLP** and Gen AI concepts.
- Implemented monitoring and alerting with **CloudWatch**, maintaining 99.9% uptime for critical services.
- Partnered with product managers, QA engineers, and designers to align technical solutions with business objectives, driving timely and high-quality feature delivery.

FULL STACK DEVELOPER INTERN , MRIIC

Jan 2023 – June 2023

- Developed and maintained web applications using Django and the MERN stack (MongoDB, Express.js, React, Node.js).
- Designed, developed, and integrated RESTful APIs with cloud-hosted databases, ensuring secure and efficient data flow.
- Built responsive landing pages with HTML, CSS, JavaScript, and Bootstrap, improving user engagement and performance.
- Collaborated with cross-functional teams to deliver scalable features and resolve technical issues within project timelines.

PROJECTS

Chanakya School Website

[Link](#) 🔗.

Built a school management web application using Django.

- Built and deployed a Django-based web application on **PythonAnywhere**, leveraging Python, JavaScript, HTML, and CSS for robust functionality.
- Streamlined communication by integrating **Django Mailer** for automated notifications, leading to faster response times and improved reliability.
- Enhanced mobile responsiveness with **Bootstrap 5** for better user experience.

Portfolio Website

[Link](#) 🔗.

Developed a personal portfolio web application using the React framework.

- Employed React, JavaScript, HTML, CSS, and **GitHub Actions** for building and automating deployments.
- Integrated AWS services (**S3** for hosting, **Lambda** and **DynamoDB**, **CloudFront** for caching) to ensure global performance and scalability.
- Used Terraform for automated infrastructure provisioning, maintaining a fully serverless and high-speed architecture for project showcases.

TECHNICAL SKILLS

- Languages & Scripting:** Java, JavaScript
- Frameworks & Libraries:** Node.js, Express, React.js
- Cloud & Databases:** AWS, Opensearch
- Concepts:** Data Structures & Algorithms (DSA), Problem Solving

EDUCATION

Manav Rachna International University

B.tech CSE

Faridabad, Haryana

2019 – 2023

CERTIFICATIONS AND PARTICIPATIONS

- Basics of Kubernetes (KODEKLOUD): [Link](#) 🔗.
- Basics of Docker (KODEKLOUD): [Link](#) 🔗.
- Learn Figma - UI/UX Design Essential Training : [Link](#) 🔗 .
- Mentored junior developers on Django fundamentals and full-stack web application development during the Samsung Django Hackathon (May 2023).
- Performed guitar in music events.
- Represented MRIIRS in table tennis.
