EXPERIENCE

SYSTEM ENGINEER, TCS

Dec 2023 – Present

- Designed and deployed scalable Node.js/Express microservices and REST APIs for a large-scale pharmaceutical application using AWS (EC2, ECS, Lambda), improving system reliability and performance.
- Migrated legacy on-premises systems to AWS (EC2, S3, Lambda), reducing operational overhead by 35% while enhancing scalability and resiliency.
- Led Heroku to AWS migration, containerizing services with Docker on ECS/Fargate for efficient deployment and management.
- Built and tuned Amazon OpenSearch (Elasticsearch) indices and advanced search queries, improving relevance and retrieval speed across the application.
- Implemented infrastructure-as-code and monitoring with AWS CloudFormation and CloudWatch, automating deployments and maintaining 99.9% uptime for critical services.

FULL STACK DEVELOPER INTERN , MRIIC

Jan 2023 – June 2023

- Developed and maintained web applications using Django and the MERN stack, while gaining practical experience with Docker and Kubernetes.
- Worked on API development, management, and integration with cloud databases.
- Played a pivotal role in a project involving API management, development, and integration with cloud databases, among other responsibilities.
- Contributed to building responsive landing pages with HTML, CSS, JavaScript, and Bootstrap.

PROJECTS

Chanakya School Website

Link 

Built a school management web application using Django.

- Leveraged Django, Python, JavaScript, HTML, CSS for structured development.
- Automated email notifications using Django Mailer on PythonAnywhere, reducing admin response time by 6 hours and improving uptime.
- Enhanced mobile responsiveness with Bootstrap 5 for better user experience.

Portfolio Website

Link 

Developed a personal portfolio web application using the React framework.

- Employed React, JavaScript, HTML, CSS, and GitHub Actions for building and automating deployments.
- Integrated AWS services (S3 for hosting, Lambda and DynamoDB for workflows, CloudFront for caching) to ensure global performance and scalability.
- Used Terraform for automated infrastructure provisioning, maintaining a fully serverless and high-speed architecture for project showcases.

TECHNICAL SKILLS

- , HTML, CSS, Java, DSA, Problem Solving, JavaScript, AWS, Open Search, NodeJs, Express, React Js, MongoDB

EDUCATION

Manav Rachna International University

Faridabad, Haryana

B.tech CSE

2019 – 2023

- Cumulative GPA : **7.65**

Vidya Mandir Public School

Faridabad, Haryana

PCM

2018 – 2019

- Score : **88%**

CERTIFICATIONS AND PARTICIPATIONS

- Basics of Kubernetes (KODEKLOUD): Link 
- Basics of Docker (KODEKLOUD): Link 
- Learn Figma - UI/UX Design Essential Training : Link 
- Mentored junior participants on Django fundamentals and web application development during the Samsung Django Hackathon in May 2023.
- Performed guitar in music events.
- Represented MRIIRS in table tennis.
